FOR IMMEDIATE RELEASE

Cattini & Figlio Srl is pleased to announce to the entire community the update of its Corporate Website which can provide extensive information packed in an extremely distinctive and attractive graphic.

A Corporate Website reflects the identity of its Company and it is therefore a crucial communication tool - reports Lorenzo A. Cattini - Company's C.e.o. . Every care has been taken to create a CW which provides to each Visitor the clear goals and values of our Company as well – of course – as all primary information a Visitor needs to know about us.

This will be the beginning of a new era where, through our new portal, information exchange between us, our Customers and our Suppliers will be significantly improved for everyone's benefit, states Roberto G. Cattini – Company's Governance officer. We are proud of what we have done and wish to thank our partners – Key Technologies – for their splendid job.
